

Introduction

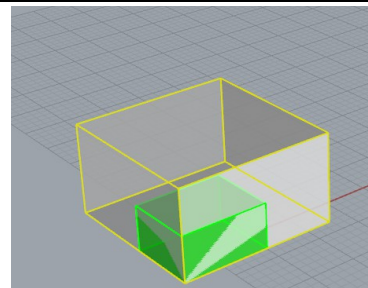

This document identifies the parts created in the simple model for Homework 221. The answers in here are only specific to the Homework221_Solution.gf file. Your answers may be different if you built your own model. If you looked at the answers first, now is a good time to try and build the same model on your own. The specifics don't matter, just the concepts.

Hull Part

Part Name: Hull

Component: HLCOMP

Shape: s0

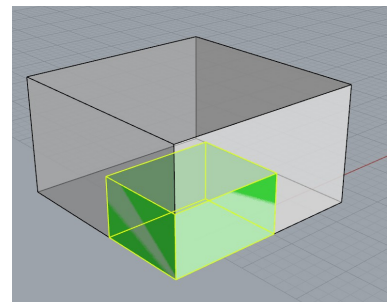

Tank Part

Part Name: TANK1

Component: TKCOMP

Shape: s2
